Camera Instructions

Name: _____

Date: _____

FUJI's 1 & 2

Manual Settings

To use Manual settings, turn the dial to the M

Setting FStop

1. Press the +/- button
2. Press the < or > arrow to change the FStop
3. Press the +/- button to return to your main settings, or press the shutter button

Please note that due to how digital cameras work, not all fstops may be available at all times. Try zooming in or out to access different fstops.

Setting Shutter Speed

1. Press the +/- button
2. Press the ^ or v arrow to change the shutter speed
3. Press the +/- button to return to your main settings, or press the shutter button

Setting Film Speed (ISO)

1. Press the *f* button
2. Choose ISO
3. Press the > button
4. Choose your ISO
5. Press Menu/OK

Remember, as you set your FStop, Shutter Speed and Film Speed, your exposure graph marker should be as close to the middle as possible for accurate exposure. Also remember that it will change as you move the camera, based on the light coming into the camera.

FUJI's 3-9

Manual Settings

To use Manual settings, turn the dial to the M
