English 12/Art

Name: Canterbury Tales Project Artist Statement

Please write an artist statement for your tunnel sculpture. Your assignment should be typed and include proper spelling and grammar. **It should be a well-written statement that is a coherent thought,** reflective of the thought and effort that you put into your illustration.

Please see the course website for due dates. Please share the completed statement with me on Google Drive.

Your statement should address the following (but not necessarily in this order):

- Explain your portrait. Include what Canterbury Tales character you chose and how you modernized them and why you made the decisions you did. Include references to what you did in your illustration to do so.
- Explain how you incorporated medieval art elements
- Include your thoughts on what larger statement about society you are making by modernizing your character. How does the Canterbury Tales connect with our contemporary society? Why should we care about what you are saying about your artwork?
- Include your thoughts about how can drawing comparisons help us understand something better?
- Evaluate your successfulness. Do you think you were successful? Why or why not? What would you change?
