

English 12/Art

Name: _____ Tunnel Sculpture Artist Statement

Please write an artist statement for your tunnel sculpture. Your assignment should be typed and include proper spelling and grammar. **It should be a well-written statement that is a coherent thought**, reflective of the thought and effort that you put into your boast, sculpture and performance.

Please share the completed statement with me on Google Drive by the due date (see course website).

Your statement should address the following (but not necessarily in this order):

- How your sculpture reflects and analyzes what you accomplished and overcame as a youth
- How your sculpture reflects and analyzes what you accomplished and overcame in your middle years
- How your sculpture reflects and analyzes what you accomplished and overcame (or are working towards accomplishing and overcoming) in your high school/present years
- How your sculpture/additional layer reflects and analyzes what your future “demons” are and how you will overcome them
- Your process in deciding what to do and the making of your sculpture
- How you created interactions and connections (visual/conceptual/both) between your different layers and your experiences across your life.
- How you treated the surface to emphasize the meaning in your sculpture
- How your materials (if they did) added further meaning to your sculpture
- Evaluate your successfulness. Do you think you were successful? Why or why not? What would you change?
